- Advanced knowledge of digital photography and camera functions (6+ Years of DSLR experience)
- Fundamental, but growing understanding of HTML/CSS + Wordpress/tumblr theme building
- Principles of typography and publication design
- Proficient in using and setting up photo studio equipment

WORK HISTORY

Stoutonia Newspaper—Digital Imaging Editor

Aug. 2011—May 2012

I took exciting and engaging photos for the cover of the newspaper, often entailing planning and conducting a photo shoot. I also did the hiring and managing of the paper's photographers. This entailed keeping in communication with section editors and writers and delegating to the photographers what needed to be shot.

Learning Services Multimedia Team Member

Jan 2011—May 2012

I conducted photo shoots both inside and outside of the studio. They ranged from product photography to portraits and event photography. I was also responsible for uploading and maintaining a large online archive of photos, as well as communicating with professors and students while producing and delivering content.

Stoutonia Newspaper—Layout Designer

Aug. 2010—Aug. 2011

I was responsible for arranging articles and type manipulation within Adobe InDesign. I also generated visual content for special articles and promotional pieces, as well as photo processing.

Freelance Photography and Design

2008—Present

I have completed a number of client-based projects, including album artwork design, logo design, poster design, product photography, event photography, and senior portraits.
